

AFFORDABLE TRAINING SCHEMES

Site Supervisor's Safety Training

Duration | 2 days

Price | £250

Bernard Sims Associates are running a course specifically tailored for Supervisory staff on building and construction sites. This course will include:

- The Health and Safety at Work Act and relevant regulations
- Specific site issues, which will include site set up, controls and work at height
- Tool box talks
- Control of subcontractors
- Health issues including asbestos and silica dust

This course will provide a sound basis for those either currently or intending to undertake supervisory services and it will provide an introduction to health, safety, welfare and environmental issues.

The training provided will be classroom based and use a variety of teaching and assessment methods which will provide a clear understanding of responsibilities and practical steps that will lead to a safe site.

Through continuous assessment and a multiple choice examination at the end of the course successful delegates will be issued with a certificate comparable to other training providers.
